1. At the suggestion of [REDACTED] I talked to [REDACTED] of the Inspector General's staff about the fact that there were some fifteen research projects in mechanical translation in addition to our own. He was aware of this and felt that there were not sufficient grounds to warrant discontinuing our project at this time.

2. Gordon Stewart briefed me on the [REDACTED] case which is being considered by the General Accounting Office and I approved of [REDACTED] going over to discuss the matter with GAO and the Department of Justice. (Following this meeting Ollie reported that GAO would decide the case in our favor.)

3. I talked to Gordon Stewart about the Office of Research and Reports' request that we sponsor economic students anywhere from one to three years prior to their entrance on duty with CIA. I asked him to see if he couldn't work this out with Otto Guthe and Matt Baird; however, I was most reluctant to pay tuition for any student who had not served at least one year with the Agency. I also believed that this would be contrary to the spirit of our exemption from the recent training bill.

4. Gordon Stewart reported that he was not quite ready to come forward with his "RIF" program but expected to be ready within the next few weeks.
